10 November 1955

The Honorable Herbert Brownell
Attorney General
Department of Justice
Washington 25, D. C.

Dear Herb:

The President is considering setting up a Board of Consultants to review the work of this Agency. This is along the lines of one of the recommendations of the Hoover Commission of which you are a member and which recommended a "committee of experienced private citizens who shall have the responsibility to examine and report" on the work of the Government's foreign intelligence activities.

The President has asked me to draft and submit to you for your suggestions a form of "secrecy" oath which we could appropriately ask the members of the Board to sign. Accordingly, I have drafted a form of oath.

Personally, I see no difficulty in this procedure as we always require a very similar form of oath from all of our outside consultants and any view you have on this subject would be appreciated.

Sincerely yours,

Allen W. Dulles
Director

SECRECY OATH

By virtue of my appointment to the Board of Consultants for the Central Intelligence Agency I will become cognizant of intelligence information of the highest importance to the national defense and security and of information pertaining to intelligence sources and methods. I do solemnly pledge my word that I will never divulge any classified information which I may obtain as a result of my work on the Board except to the President of the United States or such persons as he may authorize to receive such information.
